## DECONTAMINATION/STAGING SITE ASSESSMENT

Facility Name :	Theodore Staging Area	Facility Location ID:	TH01
Assessment Date :	9/10/2010	Incident Name :	BP Spill
Physical Location :	4770 Hamilton Blvd.		
City, State :	Theodore, AL	County :	Mobile

### ASSESSMENT INFORMATION

General Site Information and Observations			
1. All waste stored in lined rolloff boxes?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
2. Rolloff boxes covered after filled (or end of day)?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input checked="" type="checkbox"/> N/A
3. Any evidence of oily waste or oily waste waters?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	<input type="checkbox"/> N/A
4. If yes, was it adequately addressed?			
5. How many samples were collected?			
<b>Additional Comments :</b> Met with Glenn Miller and Louis Webb, both with WM. Six roll offs (R/O) of oily contaminated material (OCM) were staged onsite. EPA and CTEH collected a sample of sorbent boom from R/O number RT1993. All six R/O were securely covered. No concerns regarding waste management issues were noted during the visit.
